- Numerous private/parochial schools

Northcentral Technical College

Recent increase in 18-24 year olds enrolling at NTC

NTC Demographics Poster 2 – Program and Pre-Program Students, 2015-16

Median Student Age, Program Students = 24; Median Student Age, Entire College = 29

Dual Credit & Academies

What is the difference?

- Dual Credit: College courses taught by certified high school faculty
- Academies are packaged courses that create strong career pathways for students
 - Dual Credit
 - Contracted Courses
 - Youth Options/Course Options

Academy Structures

- Dual Credit: Students taking 2 or more related dual credit classes.
- Regional Academies: Cohort of students taking classes the same time every day, some dual credit, some contracted, some course options.
- Northern Academy: Classes held at the local high school 1st semester/then 2nd semester come to NTC campus for classes.

Regional Academy Structure

Academies are unique for each school or consortium

Northcentral TECHNICAL COLLEGE

Health Academy

HELPING STUDENTS INVESTIGATE CAREER OPTIONS.

Northcentral Technical College (NTC), in conjunction with your local school district, is offering an opportunity for senior students interested in pursuing a career in the healthcare field to complete the Health Academy.

- Classes may be offered via Interactive Television (ITV) or online.
- Credits transfer into NTC associate degrees or technical diplomas.
- Students receive one-on-one support from an NTC Career Coach.

GET STARTED
For additional information about this Academy or to discover other opportunities available through NTC, contact:
• Korey Killinski, NTC Career Coach, at killinski@ntc.edu or 715.803.1003, or contact your high school counselor.

NEW: Pathway Academies

- Formerly DWD WI Fast Forward – Blueprint for Prosperity Grant, Now GPR, College, and K-12 Funds
- CNA, IT, Welding, Ag, Accounting, EMT
- Cohort Based/Individual Academy Plan
- Challenge: Tuition
- 50% Transition to NTC
- Case Management is Key

Pathway Academy Case Management

- Schools help select students
- Meeting with students before class begins
- Parent orientations
- Regular check-ins with students and NTC faculty
- Feedback to K-12, parent(s), and student
- Job skills training & college transition support

Getting Started – From the Top Down

- Building relationships with K-12 administrators and local employers
- Discuss best package of courses
 - What are the needs of the students, districts, workforce?
 - Are there industry certifications/credentials available?
 - How will academies ladder into other programs?
- Review teacher certifications & logistics

Calculating Return & Benefits

- Tracking outcomes vs. activities
- Adjust based on regular feedback
- Direct enrollment/Higher transition rates
- For college: creates awareness, fights negative perceptions
- For Workforce: meeting employee shortages
- For K-12: providing opportunities to students & resource sharing
